WORK EXPERIENCE

Inventron Technologies: Nov 2023 - Dec 2023
Duration: Four weeks
Gained practical experience in machine learning algorithms and their applications, working on real-world data sets and honing skills in Python, Scikit-learn, and data preprocessing.

Societal Internship at a Girls' Government School:
Nov 2023 - Dec 2023
Duration: Four weeks
Delivered comprehensive training sessions on essential computer skills, including Microsoft Office tools such as Excel, and PowerPoint, to over 35 students, significantly enhancing digital literacy

PROJECTS

Online food ordering management system:
Tech Stack: HTML, CSS, JS, MYSQL
This project streamlines the process of ordering food online, managing orders, payments, and deliveries through a user-friendly interface.

Heart disease prediction:
Tech Stack: PYTHON, PANDAS, NumPy, SCIKIT-LEARN
Predicting the likelihood of heart disease in patients using a machine learning model based on their health data.

CERTIFICATE

- Machine Learning with Python
- Data Science for Python
- Java full stack development

EDUCATIONAL BACKGROUND

2007 - 2019 1st to 10th
PRAGATHI EDUCATIONAL INSTITUTE, SARAGURU.

2019 - 2021 1st & 2nd PU
BGS PU COLLEGE, HD KOTE.

2021 PURSUING B.E (AIML) ATME COLLEGE OF ENGINEERING, MYSORE.

PROFESSIONAL SUMMARY

Detail-oriented AI/ML Engineering student with a strong foundation in machine learning algorithms, data structures, and programming languages Proven ability to analyze large datasets, troubleshoot complex problems, and collaborate effectively in team environments. Eager to contribute skills in data preprocessing, model training, and deployment to innovative projects in AI-driven technologies."

SKILLS

Technical skills: HTML, CSS, Python, MySQL, JavaScript.

Soft skills: Well Organized, Communication, Time Management.

Tools, Frameworks and IDE: Arduino, Visual Studio Code, Code::Blocks, Scikit-learn.
